Le tenute tipo **TTU/O** sono tenute a semplice effetto tenute su stelo e pistone con all'interno del labbro un o-ring o un xring che ha la funzione di molla. L'o-ring agisce come funzione di precarico e come anti colpo di ariete.

#### VANTAGGI

- Buone prestazioni di tenuta a basse pressioni e pressioni d'urto
- Ha effetto di tenuta statico e dinamico superiore
- Facile montaggio in cave chiuse
- Design semplice della cava
- Soluzione di tenuta economica

#### APPLICAZIONE

- Carrelli elevatori presse ad iniezione
- macchine agricole
- cilindri standard.
